

HURRICANE

DROP HAMMER
TM

HD3700

High Production Destruction

HURRICANE

DROP HAMMER

- EASY OPERATION** reduces operator error and fatigue.
- COMPACT DESIGN** and light weight makes transport simple.
- SIMPLE HOOK UP** allows for easy change of attachments.
- LOW MAINTENANCE** and minimal wear items reduces downtime.
- HIGH PRODUCTION** is maintained due to the broad face of the striking surface which allows for excellent area coverage and production.
- LOW INVESTMENT** and high production results in the lowest cost per yard ton figures attainable.
- SHOCK FREE** ground engagement platform system keeps the Hurricane grounded and dissipates the shock as it pulverizes the concrete.

- * Highest Impact to weight ratio in the business
- * No Points to wear out, break, or replace.
- * No Front Head bushings to grease and wear out.
- * No expensive seals to be replaced.
- * No Accumulator to recharge or replace.
- * No Daily or weekly lubrication required.
- * The Hurricane will continue to perform with its same energy until gravity changes.
- * Replaceable bolt on adapter bracket for both skid steer and excavator mounting.
- * Bolt on ground engagement end plate for ease of maintenance.

TECHNICAL DATA	
HD 3700	
Impact Energy Blow	3700 ft/lb class
Blows Per Minute	30
Total Impact Energy (Per Minute)	112,000
Operating Weight	1540 lbs.
Min. Oil Flow Demand	8 GPM
Min. Hyd. Pressure	2200 p.s.i.
Operating Height (with weight extended)	7' 6" (adjustable)
Dimensions (HxWxDx)	5' x 1' 6" x 1' 6"
